September 2012

It's almost time for the annual Fargo/Moorhead Visual Artists (FMVA) Studio Crawl. I have participated in the event for 4 years. My artwork is featured on the cover of the brochure. It is an exciting time for me as I am able to not only show and sell the work I have been doing for the past year, but I also will be doing my usual painting demonstration.

This year I will be doing a house portrait. My paintings will not be the only work on display. The students of Studio e have been very busy learning about the master artists Vincent van Gogh, Wassily Kandinsky, and Pablo Picasso. To express how the artist have influenced them, the art kids have done paintings on surfaces in the studio. I am so fortunate to work in such a vibrant, colorful, and creatively enhanced environment.

If you need a brochure, I have plenty to share. Otherwise, go to www.fmva.us for more information regarding the studio crawl.

Great news! Josie's Corner Cafe in downtown Fargo will host our spring art show. The kids art will be on display for about 8 weeks starting in early March. We will have an opening featuring Josie's delicious cookies, hot chocolate, lemonade and coffee. I will keep you informed as dates and times are settled.
